

***Our great big God had you in mind,
When He created all mankind.***

Yes, even before the world began, God had a very special plan.

**God had the very best plan you see,
He even made the first family!
He made a man who was all alone,
Then a woman out of his rib bone.**

**The two were meant to be together,
But that's not all. There was something better.**

**God gave them children, a family,
To love each other happily.**
