

Correction sheet for:
Math Lessons for a Living Education: Level 4
For use with versions prior to 2020 update

We strive for excellence in our curriculum, and so we continually reassess the material as we get feedback from all who use our books. From this vital feedback, we determine if there are corrections that need to be made, information that needs to be clarified, or alignment and spacing changes needed that will help the material be more functional and user friendly for students. The following reflects issues of concern that have been updated in later versions.

Pages 17/341 - The correct answer for $9 - 8 = 1$.

Pages 27/343 - Answer to problem 3 should be 26. (It includes the family mentioned in the problem.)

Pages 30/343 - Mixed Review, the answers were accidentally switched in the answer key: $120 - 20 + 50 =$ the answer should be 150; $7 \times 3 + 5 - 10 =$ the answer should be 16; $98 - 66 + 8 - 40 =$ the answer should be 0; $8 \times 9 - 2 + 6 =$ the answer should be 76.

Pages 46-47 - The answers are already completed on both pages. A download on the product page has the corrected pages.

Pages 58/349 - The first problem shows the answer of $3/6$ when it should be $5/6$. It is $3/6 + 2/6$.

Pages 59/349 - The answer for $3/5 - 2/5$ should be $1/5$.

Pages 227/380 - The bottom shape is actually a nonagon (with 9 sides) but page states it has 8 obtuse angles and the answer key says it's an octagon.

Page 260 - In the Let's Practice portion, the instructions say that the graph is 12×9 , but it is actually 12×10 .

Page 262 - In the example of the new concept, step 2, the 12 should be lined up under the 14.

Pages 293/388 - Starting at Letter M, there should be new instructions. It is asking for the conversion instead of whether it is metric or English: 2,000 pounds = 1 ton; 3 feet = 1 yard; 12 items = 1 dozen; 24 hours = 1 day; 4 pecks = 1 bushel; and 7 days = 1 week.

Page 355 - First answer should be segment. Second answer should be ray.

Page 356 - Answer key for fourth division problem (page 93) should be 4 divided by 2 with the answer of 2. Answer key for page 94 should be $5/9 + 2/9 = 7/9$ (answer key says $5/9$).

Page 381 - On the section for page 232 the second mental math question states "sixteen" in the question but subtracts "17" in the answer. Should be $26 - 16 = 10$.
